

Project FDBN		Project No.		Date of Lift	Time of Lift
Location				Type of Lift A B	
Hoisting over operating processes ☐ Yes ☐ No	Hoisting over personnel ☐ Yes ☐ No	Hoisting near energized power lines ☐ Yes ☐ No	Non-Routine / Technically difficult rigging configuration ☐ Yes ☐ No		
Description of Hoisting Activity:					
Task Specific Hazards & Controls: (additional space on back)					
LOAD & RIGGING EQUIPMENT DESCRIPTION					
Load Length:	Load Width:	Load Height:	Load Diameter:		
Beam Clamp(s)		Load Description and Weight:			
Chain Fall(s)					
Ratchet Lever Hoist(s)		Weight Determined By:			
Pneumatic / Electric Hoist(s)		☐ Drawings ☐ ID Tags ☐ Estimated ☐ Shipping Ticket ☐ Weighed ☐ Weight Calculation			
Jack(s)		Maximum Load on Rigging (%)			
Snatch Block(s)		Tag Lines ☐ Yes ☐ No	Softeners in Place ☐ Yes ☐ No		
Lifting Beam or Specialty Items		Adequate Access / Egress ☐ Yes ☐ No			
Sling(s)		Work Area Barricaded ☐ Yes ☐ No			
Shackle(s)					
Total Rigging Equipment Weight:			Total Gross Load:		
Adequate Capacity at Attachment Point(s)? ☐ Yes ☐ No					
LIST ALL MANUAL RIGGERS INVOLVED (print name)					
Lead Qualified Manual Rigger(s)	Qualified Manual Rigger(s)		Competent Manual Rigger(s)		
APPROVER SIGNATURES					
Lead Qualified Manual Rigger (Contractor SME)		Manual Lift Permit Issuer (Jacobs Superintendent)			
Rigging Engineer (Required for B)		Manual Lift Director (Required for B)			
Project / Site Manager (Required for B)		Lift Director (Jacobs SME required for B)			

Note: This form is to be used for all Manual lifts – types A, B. An A is considered a simple lift and B is considered as a complex lift.
