

Rigging and Lift Plan for Critical Lifts and Crane-Suspended Personnel Platform Lifts

Company: _____

Location:				Date of lift:	
Load description:					
Does this lift involve lifting personnel?	☐ Yes	☐ No			

Lift description:

A. WEIGHT

1. Weight empty (load or basket) _____ lb
2. Weight of headache ball _____ lb
3. Weight of lifting bar _____ lb
4. Weight of slings and shackles _____ lb
5. Weight of jib _____ lb
6. Weight of headache ball on jib _____ lb
7. Weight of cable (load fall) _____ lb
8. Allowance for unaccounted material in equipment (10 percent of weight) _____ lb
9. Number of people lifted X 250 _____ lb
10. Other _____ lb
- Total weight _____ lb

Source of load weight:

☐ Name plate

☐ Drawings

☐ Calculated

☐ Other _____

Weights verified by:

B. JIB

☐ Erected

☐ Stored

1. Is job to be used? ☐ Yes ☐ No
2. Length of jib _____
3. Angle of jib _____
4. Rated capacity of jib (from chart) ☐

C. CRANE PLACEMENT

1. Any deviations from smooth solid foundation in the area? _____
2. Any electrical hazards in the area? _____
3. Obstacles or obstructions to lift or swing? _____
4. Swing direction and degree (boom swing)? _____
5. Ground bearing pressure _____

D. CABLE

1. Number of parts of cable _____
2. Size of cable _____

E. SIZING OF SLINGS

1. Sling Selection
 - a. Type of arrangement _____
 - b. Number of slings in hook up _____
 - c. Sling length _____
 - d. Rated capacity of sling ☐
2. Shackle Selection
 - a. Capacity (tons) _____
 - b. Shackle attached to load by _____
 - c. Number of shackles _____

F. CRANE		G. PRELIFT CHECKLIST		
1. Type of crane		1. Matting acceptable	YES	NO
2. Crane capacity	_____ tons	2. Outriggers fully extended	☐	☐
3. Lift arrangement	_____	3. Crane in good condition	☐	☐
a. Max distance – Center of load to center pin of crane	_____ ft	4. Swing room	☐	☐
b. Length of boom	_____ ft	5. Head room checked	☐	☐
c. Angle of boom at pick up	_____ degrees	6. Max counterweights used	☐	☐
d. Angle of boom at set	_____ degrees	7. Tag line used	☐	☐
e. Rated capacity of crane under most severe lifting conditions (from chart)		8. Experienced operator	☐	☐
1) Over rear	_____ lb	9. Experienced flagman (designated)	☐	☐
2) Over front	_____ lb	10. Experienced rigger	☐	☐
3) Over side	_____ lb	11. Load chart in crane	☐	☐
4. Rated capacity of the crane for the lift (from chart)	☐	12. Wind conditions:		
5. Max load on crane	_____ lb	13. Crane inspected by:		
6. Lift is crane's rated capacity	_____	14. Functional test of crane by:
