

Complex Lockout/Tagout Plan

Project Aura – Hazardous Energy Control

1. Scope – Completed by Lockout Controller										
Lockout Plan Number						< - Issued by Permit Administrator				
Issue Date						Issue Time		AM / PM		
Lockout Plan valid for 3months. Lockout durations beyond 3months require additional surveillance										
Project Location	DSM1	DSM2	WH	CSTF	DPFG	Headblock 1	Lab Admin	DSM3	DSM4	Headblock 2
System Name/ID										
LOTO Location										
Work Location										
Scope of Work										

2. Energy Hazards and Clearing– Check all that apply, define the source, and describe how hazards will be cleared.	
Electrical []	
Hydraulic []	
Thermal []	
Mechanical []	
Pneumatic []	
Chemical <i>(list all)</i> []	
Other []	
P&ID mark-ups showing isolation points attached? Yes []	

(Jacobs or FDBN will always be first lock on and last lock off, but the performer may be the party responsible for the isolation)

3. Lockout Plan Authorization – Signed AFTER completion of Section 4. Lockout Point Isolation Plan	
All Lockout Plans must be Authorized before Locks are Applied	
Lockout Approver: (Jacobs)	print sign date

Complex Lockout/Tagout Form

Project Aura – Hazardous Energy Control

4. Lockout Point Isolation Plan			5. Lockout Application & Verification					6. LOTO Removal	
Completed by Lockout Performer			Performer				Facilitator	Performer	
Lockout Point	Device or Equipment Isolated (list affected equipment)	Isolation Position (Open/Closed/Off/On)	Lock ID# or Tag Only	Application Date / Initial	Lockout Point Verified Try	Zero Energy Verified Test	Test and Try Confirmed Date / Initial	Removal Date / Initial	Return to Service Position (Open/Closed/Off/On)
					Initial				
Additional Equipment Isolated? Y [] N [] If yes, attach an Additional Equipment Isolation Sheet									

(Jacobs or FDBN will always be first lock on and last lock off, but the performer may be the party responsible for the isolation)

6. Authorized Employees sign once sections 4 & 5 are complete and locks are applied		
Lockbox ID # _____	Lockout-Tagout Plan Number _____	
Lockout Plan Performer: (Subcontractor Authorized person or Jacobs)	print	sign date/time
Lockout Plan Facilitator: (Jacobs)	print	sign date/time

Additional Equipment Isolation Sheet

Project Aura – Hazardous Energy Control

4. Lockout Point Isolation Plan (Cont.)			5. Lockout Application & Verification (Cont.)					6. LOTO Removal (Cont.)	
Completed by Lockout Performer			Performer				Facilitator	Performer	
Lockout Point	Device or Equipment Isolated (list affected equipment)	Isolation Position (Open/Closed/Off/On)	Lock ID# or Tag Only	Application <i>Date / Initial</i>	Lockout Point Verified Try	Zero Energy Verified Test	Test and Try Confirmed <i>Date / Initial</i>	Removal <i>Date / Initial</i>	Return to Service Position (Open/Closed/Off/On)
					<i>Initial</i>				

Additional Equipment Isolated? Y [] N [] If yes, attach an Additional Equipment Isolation Sheet

(Jacobs or FDBN will always be first lock on and last lock off, but the performer may be the party responsible for the isolation)

Authorized Employees (Cont.)		
Lockout Performer: (Subcontractor Authorized Person)	print	sign date/time
Lockout Facilitator: (Jacobs)	print	sign date/time

Lockout/Tagout Log Sheet

Plan # _____

All Authorized Employees must sign-on to the lockout when Personal Locks are applied and sign-off when Personal Locks are removed. By signing this sheet, the authorized employee confirms that they have been briefed on the LOTO, has walked the system boundary, and has verified that the LOTO provides a safe work state.
